

# WEST BY GOD

COALFIRED PIZZA

## AT COUNTRY ROADS AXE CO.

Our "Black Diamond Pies" are inspired from the critically acclaimed New Haven style "apizza" (pronounced: ah-beetz) from New Haven, CT. Although we cannot replicate New Haven style, our goal is to bring techniques and ingredients to our guests from what many claim is "The Pizza Capital of the World"! Our style of pizza, what we call the "West by God Way" has a thin stretch from one end to the other creating a crispy yet chewy crust. The true secret lies in the cooking technique in the CoalFired oven. Bringing cooking temperatures to a near 700 degrees, CoalFired ovens give pizzas a distinct smell, taste, and charred (not burnt) look.

We make our Black Diamond Pies using only the BEST ingredients. The West by God Way includes what we believe is the right ratio of dough, sauce, cheese, and toppings. By utilizing the best ingredients available in all four parts, our guests get to taste the quality in each integral part of a pizza. We believe pizza is an art, and our team is passionate about creating the best pizza product possible.

This isn't your everyday pizza, this is West by God CoalFired Pizza!
